- **Ukrainian** - native
- **Russian** - native
- **English** - B2/C1
- **Polish** - A2 (learning)

JULIA KUZNIECOWA

Technical Writer, Technical Communicator, DocOps

Technical Writer with an engineering background.

Daily, I'm focused on creating developer docs, API specifications and user guides; first of all, interested in projects with a docs-as-code approach and DocOps strategy.

My professional interest lies widely in software development. As a specialist, I consider myself adaptable and detail-oriented, with excellent communication and creative thinking skills. Able to effectively self-manage during independent projects and collaborate as part of a friendly team.

> EXPERIENCE

Technical Writer, *Corefy, Remote*

Aug 2019 - Present

- Developed and maintained documentation for external (clients) and internal (developers) users.
- Studied drawings, specifications, mockups and product samples to integrate and delineate technology, operating procedure, production sequence and detail.
- Interviewed production and engineering personnel to become familiar with product technologies and production methods.
- Standardised and made changes to material prepared by managers and developers.
- Selected photographs, drawings, and sketches and made diagrams and charts to illustrate the material.
- Provided manual testing, made interface localisation and helped develop software architecture documentation.

Head Of Content, *Vintage Web Production, Kyiv, Ukraine*

Sep 2017 - Jul 2019

- Reviewed and updated web pages' content.
- Administered Internet and intranet infrastructure, including Web, file and mail servers.
- Performed user testing and usage analyses to determine sites' effectiveness and usability.
- Gathered, analysed and documented user feedback to locate and resolve sources of problems.
- Collaborated with development teams to discuss, analyse and resolve usability issues.
- Provided training and technical assistance in Web site implementation and use.
- Documented installation or configuration procedures to allow maintenance and repetition.

> VOLUNTEERING

Girls.js Poland

2022.10 - Present

Co-organizer JavaScript programming workshops introducing women to the IT field.

WWCode Kyiv

2019 - Present

Education, inspiring and supporting women to excel in technology careers.
